**INSPIRE.
EMPOWER.
ENGAGE.
TRANSFORM.**

As new leaders are emerging and workplace culture is changing, becoming a transformational leader is essential to success.

Transformational leaders are able to inspire others, facilitate cultural change and create an environment for learning, collaboration and innovation. Leaders must model the behaviors they expect from others, including authenticity, courage, and vulnerability.

DAY 1
SELF >
 Self-awareness &
 your leadership style

Learn specific, tangible tools that will enhance your leadership awareness and the ability to implement change immediately.

Participants will learn how to:

- Be inclusive
- Recognize and adapt to different styles
- Lead authentically
- Communicate effectively
- Facilitate a productive conversation

DAY 2
TEAM >
 Consensus building
 & decision making

Understand group dynamics and develop facilitation skills, including practicing the tools in a safe learning environment of peers.

Participants will learn how to:

- Facilitate integration of diverse ideas
- Develop a shared vision or collective goals with a team
- Lead in a collaborative culture
- Generate practical & creative solutions from multiple lenses
- Tap into rational & intuitive thought processes

DAY 3
STRATEGY >
 The change process,
 planning & execution

Master the strategic planning framework and how it can be used to make strategic planning engagements more productive and dynamic.

Participants will learn how to:

- Prepare & design strategic planning process
- Encourage all team members participation
- Develop specific & achievable goals
- Developing performance measures that make sense
- Create a culture of empowerment & accountability
