

TOP STRATEGIC PLANNING

CREATE A STRATEGIC PLAN THAT PROVIDES ORGANIZATIONS WITH CONSISTENCY AND PURPOSE

Strategic planning is often left on the backburner for most organizations. With difficulties implementing goals, getting buy-in from staff and partners, monitoring accountability, and measuring success – organizations feel overwhelmed by the process. The ToP Strategic Planning Method provides a structured process to guide groups (or organizations) toward a common perspective on vision and goals, shared responsibility and measurable, timebound actions.

Learn how to facilitate a strategic planning process that:

- Inspires a shared vision and empowers your team with a feasible, measurable plan
- Creates a high performing organization and teams
- Engages and inspires staff to deliver on goals and objectives they help create.

Learn how to facilitate a strategic planning process that:

- Empower groups to own the resulting plan
- Align people around common goals and strategies
- Prepare for successful strategic planning sessions
- Use tools to address complex meeting requirements
- Identify focused actions that lead to big breakthroughs
- Build capabilities in your staff to implement change through participation in the strategic plan formation!
