

# EFFECTIVE COMMUNICATION STRATEGIES WITH HUE CONVERSATIONS

Master the art of truly engaging, connecting, and thinking in new ways. This dynamic one-day interactive workshop equips you with the skills and strategies to adapt your communication to be more effective using five key thinking styles: data-based, emotive, visionary, critical, and action-oriented.

Grounded in brain science, this course emphasizes deep listening, empathy, and perspective-taking to help you better understand others. Through a structured communication framework, you'll gain practical tools to foster inclusivity, encourage meaningful participation, and confidently guide conversations from inquiry to informed action.

Engage All Thinking Styles

Empower Teams

Achieve More Together

## LEARNING OBJECTIVES

- Engage all thinking and communication styles with a structured framework.
- Guide meaningful, inclusive conversations for more effective meetings.
- Leverage team strengths for better decisions and resource efficiency.

## COST: \$750
